Seller-Basket Checking Process

Beat Those Payment Queues with *Planckly!*

About Planckly

Planckly is a simple app to make in-store shopping easier and less time consuming. If you use Planckly to shop in-store you will never have to get in any queue to pay for your shopping basket or trolley.
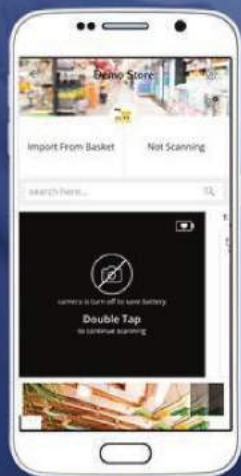

Shopper Process

Your customers just walk into the store, pick up items from the store shelves, scan the barcode of the item, and put the items into physical basket. At the end, they just pay in-app and walk out of the store.

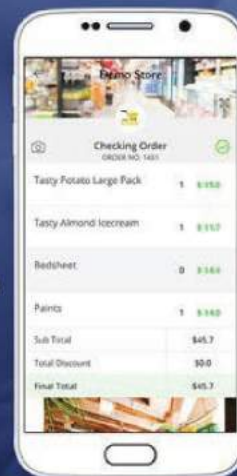

Use this QR code to check-in at the Demo Store

Use these credit card details for the demo.

SHOPPER PROCESS

Scan Item's Barcode and Add to Basket

1 Pick item from the shelves

2 Scan the barcode of the selected item

3 Put it in your basket

2

SELLER BASKET CHECKING PROCESS

Our unique process provides significant deterrent to shoplifting due to human involvement while it is many times efficient than scanning all items at a checkout counter (self-scanning or otherwise)

Scan QR Code   **Check Few Items**   **Checkout**

SELLER BASKET CHECKING PROCESS (STEP 01)

EXIT

1 Seller scans QR code OR Enters order number

2 Seller can see the full receipt

3 Seller can scan items in the physical basket to check if they have been paid for

4

SELLER BASKET CHECKING PROCESS (STEP 02)

EXIT

1 Item Verification

2a Item Verified

OR

2b Item Not Verified

5

SELLER CHECKING PROCESS

Seller Login Detail

Seller staff uses their login details to login to the app.

Please login to the app as a Demo Store Seller.
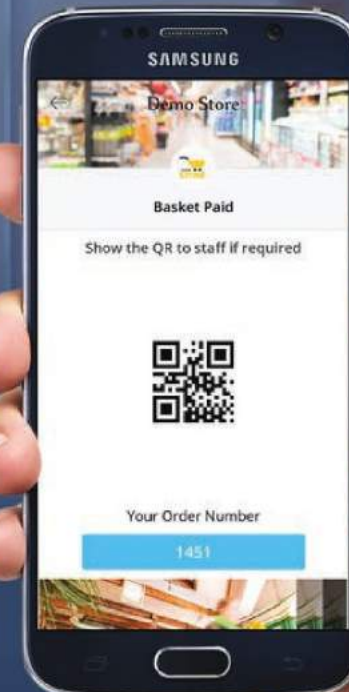

👤 **staff@demo.com**

🔒 **store**

Seller QR Code

As the shopper walks out of the store, a staff member can just scan the QR code displayed on the shopper's phone to see all the items they paid for.
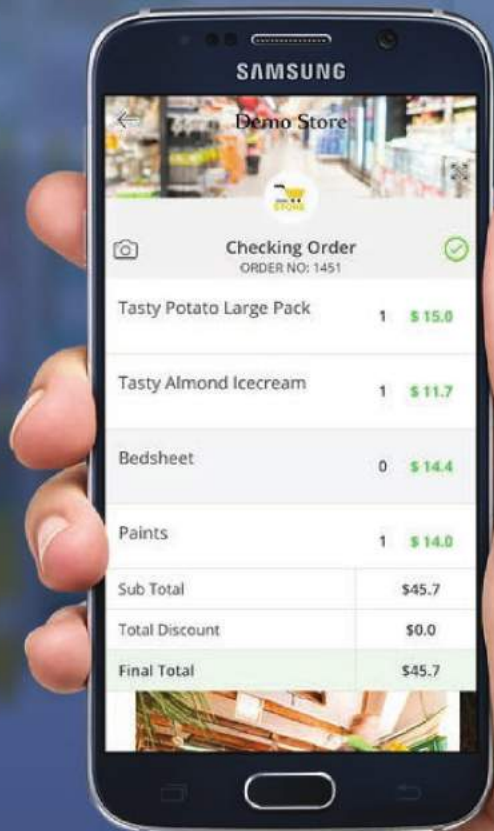

Please scan the QR Code to see the test basket.

SELLER CHECKING PROCESS

Basket of Shopper

When you scanned the QR code, you should see these items which were paid by the shopper.

Physical Basket of Shopper

Scan any of the barcodes (items in physical basket) to see if it has been paid for or not.
